

CHRISTIAN
BUILDERS & REMODELERS

Building Your Dream Home One Step At A Time

At Christian Builders & Remodelers, our pledge is to create lasting relationships with our customers by exceeding expectations and gaining trust through exceptional performance by every member of our construction team. Whether it's during consultation, design, construction/remodeling or after, we are committed to superior customer satisfaction.

Built Rock Solid For Life!

Since 1974, Our Family has been dedicated to delivering the custom home of your dreams. Our process is a collaborative partnership from the beginning. We bring your vision into every detail of our design. We understand your home is a reflection of your personality and lifestyle. Working together as partners in the process allows us to show you the potential of your beautiful new home.

Proudly Serving The Greater Twin Cities Area **And Beyond!**

Christian Builders & Remodelers is based in Rogers, MN. Our neighborhoods are always changing but they are typically around Rogers, Otsego, Elk River, St. Michael and several other surrounding communities. In fact, we're happy to build outside our neighborhoods. Just bring us your ideas and we'll gladly make your dreams of a custom home come true on the lot of your choice. We're here to serve and our willingness to accommodate alternate locations hopefully proves that.

Building Beautiful, Energy Efficient Homes

Since our beginning in 1974 we have been committed to rethinking the homebuilding process, from the materials we use to our innovative design approach. Our services focus on continuously improving our work and providing our clients with homes that fit their lifestyle, budget, and unique needs.

Heading Into The Future With A Genuine Focus On Sustainability

As our company has grown and evolved, we have adopted a philosophy revolving around the creation of efficient and healthy living environments. As a recognized local and national leader in energy-efficient custom home building, we are constantly looking for ways to improve our processes and the resulting products for our clients. Energy conservation and indoor air quality are not just buzzwords to our team — they are core tenets to how we grow our company and approach each project.

What **Sets Us Apart**

At Christian Builders, our goal is to help you design, build, or remodel the home of your dreams — we also want to help cut your energy costs and increase the value of your property. Our company has provided high-quality, complete home design, renovation, and construction services in the Twin Cities metro area since 1974. We emphasize energy efficiency and customized design to help transform your dreams into a beautiful home that is built to last for generations to come.

Ethics, Hard Work, And **Reliability**

No one will work harder for you than Christian Builders & Remodelers. We're an energy-efficient, Green Path Builder bringing professionalism to every project we take on. We are always available to answer your questions and address any concerns. Honesty and integrity are the foundations of our reputation. Count on us to make the process of building your home easy and enjoyable.

“” Testimonials

“ We enjoyed our new home building journey with Christian Builders. It started on day one and continued throughout the process to completion. We will most certainly recommend them to anyone building a new home. ” - Paul H.

“ We wanted to thank you for making the purchase of our first house go so smoothly. We both felt that we received no less than excellent service from everyone we came in contact with and we are very happy with the quality of construction. Thanks again for everything. ” - Tim and Ann V.

“ The quality of the job done by Christian Builders & Remodelers is the best we could have ever had. Good quality, good workmanship, good subcontractors! ” - Taylor D.

“ There are no words to adequately express the gratitude we hold for the group of individuals we came in contact with at Christian Builders. Having just closed on our home in Dayton, we are still in awe at the pleasant experience we’ve had during this home building journey.

It was clear from the beginning that Christian had our best interests at heart. While both my husband and I have built homes before, we could sense early on that not only was this going to be a positive experience but an enjoyable one as well. Somehow each of you had a unique way of making us feel like we were your only clients. While your industry knowledge, professionalism, and attention to detail speak for themselves, it was the added “service with a smile” mentality that left a lasting impression on us. Regardless of how warm the day or short the work window, we found that each of your subs were also quality people we feel fortunate to have crossed paths with.

In hindsight, our only regret is that we didn’t build with Christian sooner. Count on us as lifetime fans – We feel abundantly blessed to have been a part of your Christian family! Warmest regards. ” - Bob and Kelly

“ Thank you so much for all of your hard work, dedication, and personalized service while building our new home – you have done an outstanding job, and we absolutely love our house. You have all done such great work with both selling our old home and building our new home – great service and with a smile too. We will definitely recommend you to any friends in the market for a new home! We had a really pleasant experience building through Christian Builders – Your kind of personal attention is hard to find these days. ” - Steve and Jen

Exquisite Stone

9784 Highway 10 NW

Elk River, MN 55330

763-633-3500

exquistestone.com

Partner since 2013

Exquisite Stone fabricates and installs high quality custom countertop surfaces using the latest digital technologies and hand-selected factory direct materials.

Exquisite Stone works with many countertop materials including granite, marble, quartzite, soapstone and man-made quartz products. Our indoor slab selection facility allows for comfortable conditions while shopping for that perfect color, and friendly staff is always available to assist with finding just the right material for every project.

Custom project renderings are also offered to help make that countertop a thoroughly personalized product. In-stock materials are hand-selected from local sources and factory direct from overseas producers.

Countertops are produced using cutting edge digital technology and equipment to provide not only a fully custom final product but also a custom experience.

Plus, we offer a fast start-to-finish process preformed by professionals who are trained in the proper methods of hard-surface installation. Don't leave the important jobs up to just anyone. Call Astonia Co. today!

FAQ'S

How custom of a builder are you?

We are a fully custom builder with an in-house designer. You can start from scratch, pick a plan and customize from there, or bring a plan you have the rights to and we can build that too!

Do I have to build in your neighborhoods?

No. We have lots across the NW Metro, but we can build on a lot or land you own or help you find the perfect spot for your new home.

How long does it take to build a new home?

Once we have a plan and pricing finalized, plan on 5-6 months until you are moving into your new home.

What type of remodeling do you offer?

Christian Builders offers remodeling services that involve multiple facets of construction. We do kitchens, bathrooms, porches, basement finishings, additions, whole house renovation, garage additions, and detached garages, to name a few.

Do you allow the homeowner to do any of their own work?

Yes. However, Christian Builders has long-term relationships with our subcontractors and we get very good pricing because of that. The contractors adhere to our strict schedule, so if you are bringing someone into the mix or doing a few things yourself, we just have to ensure open communication and an understanding on what scheduling expectations are.

How far away from Rogers will you build?

We would love to build all over but it isn't feasible to give the best service to all of our projects. This will vary depending on the time of the year and exact location, but if you are outside 45 minutes from Rogers it will be challenging for us to fit you into our schedule.

How does financing work?

Every job is different, but for the most part we do not require construction financing. We will work with you to minimize expenses outside of normal building costs.
